College Name \*

Sankara's Degree College, Kurnool

Quiz Begins

3 of 15 points

✗ 1) What is the purpose of using filters in Tableau? \*

0/1

- ☐ A) To adjust the size of visualizations
- ☒ B) To adjust the size of visualizations ✗
- ☐ C) To limit the data displayed in visualizations
- ☐ D) To change the color palette of visualizations

Correct answer

- ☒ C) To limit the data displayed in visualizations

✗ 2) Which type of filter allows users to select specific values from a list? \* 0/1

- ☐ A) Context filter
- ☐ B) Dimension filter
- ☒ C) Measure filter ✗
- ☐ D) Extract filter

Correct answer

- ☒ B) Dimension filter

✓ 3) Which filter type is used to improve performance by reducing the amount of data loaded into memory? \*1/1

- ☐ A) Data Source Filter
- ☐ B) Context Filter
- ☒ C) Extract Filter ✓
- ☐ D) Top N Filter

✗ 4) How can you show/hide filter options in Tableau? \*

0/1

- ☐ a) Right-click on the filter and select "Show Filter."
- ☐ b) Click on the filter and press the "Show/Hide" button.
- ☒ c) Drag the filter to the view to show, and remove it to hide. ✗
- ☐ d) Use the "Filters" pane to toggle visibility.

Correct answer

- ☒ a) Right-click on the filter and select "Show Filter."

✗ 5) Which of the following types of filters in Tableau is used to limit the number of values displayed based on a measure's ranking?

\*0/1

- ☒ a) Dimension Filter ✗
- ☐ b) Measure Filter
- ☐ c) Context Filter
- ☐ d) Top N Filter

Correct answer

- ☒ d) Top N Filter

✗ 6) In Tableau, what type of filter would you use to filter data based on a condition such as "Sales > \$1000"? \*0/1

☐ a) Dimension Filter

☐ b) Measure Filter

☒ c) Context Filter ✗

☐ d) Condition Filter

Correct answer

☒ d) Condition Filter

✓ 7) Which function is used to create a conditional calculated field in Tableau? \*1/1

☒ a) IF ✓

☐ b) SUM

☐ c) AVG

☐ d) MIN

✗ 8) Which function is used to join strings in Tableau? \*

0/1

☐ a) CONCAT

☒ b) ADD

✗

☐ c) JOIN

☐ d) SUM

Correct answer

☒ a) CONCAT

✗ 9) Which function is used to find the difference between two dates in Tableau?

\*0/1

☐ a) DATEDIFF()

☒ b) DATEADD()

✗

☐ c) DIFFDATE()

☐ d) DATE\_DIFF()

Correct answer

☒ a) DATEDIFF()

✗ 10) Which of the following functions can be used in Tableau calculated fields to perform mathematical calculations? \*0/1

☐ a) AVG()

☒ b) SUM() ✗

☐ c) IF-THEN-ELSE

☐ d) All of the above

Correct answer

☒ d) All of the above

✗ 11) What is a hierarchy in Tableau? \* 0/1

☒ a) A visualization type used for representing hierarchical data structures. ✗

☐ b) A group of fields that are related to each other in a parent-child relationship.

☐ c) A set of predefined data structures used for filtering data.

☐ d) A calculation used for aggregating data across multiple dimensions.

Correct answer

☒ b) A group of fields that are related to each other in a parent-child relationship.

✗ 12) Which of the following statements about sorting in Tableau is true? \* 0/1

- ☒ a) Sorting can only be applied to discrete fields. ✗
- ☐ b) Sorting can be applied to both discrete and continuous fields.
- ☐ c) Sorting is not possible in Tableau.
- ☐ d) Sorting is only available in Tableau Desktop, not in Tableau Server.

Correct answer

- ☒ b) Sorting can be applied to both discrete and continuous fields.

✓ 13) Which of the following is NOT a type of Quick Table Calculation in Tableau? \*1/1

- ☐ a) Running Total
- ☐ b) Moving Average
- ☐ c) Percentile
- ☒ d) Exponential Smoothing ✓

✖ 14) In Tableau, what does the Moving Average quick table calculation compute? \*0/1

- ☒ a) The average value of each data point within its partition ✖
- ☐ b) The average of a measure over a moving window of time or data points
- ☐ c) The cumulative sum of a measure over a dimension
- ☐ d) The rank of each data point within its partition

Correct answer

- ☒ b) The average of a measure over a moving window of time or data points

✖ 15) What is the purpose of creating bins in Tableau? \* 0/1

- ☒ a) To create calculated fields ✖
- ☐ b) To connect to data sources
- ☐ c) To group data into predefined categories or ranges
- ☐ d) To customize the formatting of visualizations

Correct answer

- ☒ c) To group data into predefined categories or ranges

APSCHE P2 Long Term Virtual Internship Feedback

0 of 0 points

Choose Your Track \*

- ☒ Data Analytics with Tableau

Please rate your overall satisfaction with the Training \*

- ☐ Very satisfied
- ☐ Satisfied
- ☐ Neutral
- ☐ Dissatisfied
- ☒ Very dissatisfied

Did the Training met your expectations? \*

- ☐ Exceeds expectations
- ☒ Meets expectations
- ☐ Below expectations

The presenters were knowledgeable. (on a scale of 1 to 5 with 1 being low and 5 being the high) \*

- |     |                       |                       |                       |                       |                                  |      |
|-----|-----------------------|-----------------------|-----------------------|-----------------------|----------------------------------|------|
|     | 1                     | 2                     | 3                     | 4                     | 5                                |      |
| Low | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> | High |

The quality of the trainer was good. \*

- |              |                       |                       |                       |                       |                                  |             |
|--------------|-----------------------|-----------------------|-----------------------|-----------------------|----------------------------------|-------------|
|              | 1                     | 2                     | 3                     | 4                     | 5                                |             |
| Unacceptable | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> | Outstanding |

The presentations were interesting and practical. \*

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	Excellent

The presenters met the training objectives. \*

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	Excellent
